

DOVICO™

SOFTWARE

Get Time on Your Side

DOVICO Timesheet™

Web-based (Installed or Hosted Online)

Successful companies become successful by constantly improving, and that starts by understanding exactly how your employees' time & costs are being used every day. Budgets and estimates are only useful if they're actually implemented and that means tracking every hour in real time. Our software has been tested and proven by thousands of companies like Honeywell, ESPN and Motorola. Whether you're a leader in your field today or just on your way to becoming one, DOVICO Timesheet™ can help increase your profits.

Adopted by Employees

You need access to information in real time to make informed decisions and optimize productivity. Employees need solutions that make their jobs easier to ensure they become part of their routine every day. DOVICO provides them with fast access to data, and integrates to popular software like Microsoft Project and QuickBooks.

"... Very powerful and full featured. Proves that you get what you pay for. We have evaluated 10 other products and nothing comes close to the functionality"

A. DUNN

MAXCAD TECHNOLOGIES

Critical for Managers

Managers need visibility into the activities of their employees and insight into where they stand with their projects. DOVICO provides powerful project time and costing software so managers can be confident that their teams are producing at their full capacity.

Today's business environment requires managers to operate their organizations leaner and smarter, lowering costs. Information is power and with over 135 different customizable time & cost management reports they will see results.

Trusted by Executives

Executives need accurate information so they can evaluate their company's past performance while looking ahead to the future. They want to answer critical business questions quickly without sifting through reams of data. With the powerful analytics that DOVICO provides, executives have the real-time information they need to be effective.

Time tracking and costing for project management

Time and expense entry for billing

Time management metrics

Time & attendance for payroll

GET TIME ON YOUR SIDE

DOVICO Timesheet is an easy-to-use project time and cost savings solution. This software improves overall business efficiency and gives you complete control of project budget vs. actual information with real-time reporting.

"Exceptional ... merits a perfect score. DOVICO is the one solution that every employee, manager and executive will use!" -

Top Ten Reviews
