MEMBERSHIP LIST

As previously announced, this issue of UNIX NEWS contains the Unix Users' Group Membership list as of October 4, 1976.

The list is ordered as follows:

1. United States sorted on two character state abbreviation and by zip-code within state.
2. Canada sorted by postal code.
3. Other Countries sorted on name of country.

The list, in machine readable form, is on its way to Chicago Circle for inclusion in the next software distribution.

HOTLINE

Examination of the contents of the hotline revealed very little that has not appeared subsequently in Unix News. The following items, some of which may be obsolete, have not been printed here before.

.....From Mike O'Brien at Chicago Circle
.....March 25, 1976

There is a bug in "ac".
When mapping the last character of the teletype name the code says
if (i >= 'a') i =- 'a' - '9';
This maps ttya onto tty9. The fix is to replace '9'
by ':'.

.....From John Lowery at Rand Corp. (John is no longer there)
.....April 30, 1976

We are looking for drivers for
Wangco disk with IMS controller
DJ11 multiplexer.

.....From Lucas at NBS
.....May 17, 1976

Is it possible to distribute the "inode locking bug" fixes?
We have had several file system scrambles of unknown cause.
Perhaps this is our problem.

Also, has anyone experienced problems with an 11/45
due to radiated or conducted noise from such things as
vacuum cleaners, floor buffers, etc. We would be interested in
fixes in this area.

.....From Allan Wylie at AFDSC/SFA
.....July 27, 1976

Does anyone have a driver for the TA11 DEC cassette controller?
