

The Mini Panel is an easy way to access commonly used items without taking up much space on the screen.

The panel can be shown by selecting **Mini Panel** from the **Utilities** menu.

The mini panel will be open when FlightGear is restarted if it was open when FlightGear was closed.

The options on the Mini Panel are as follows:

- | | |
|----|---|
| X | X Close the Mini Panel |
| ? | ? Access this help document |
| A | A Show Aircraft Configuration |
| C | C Show Control Panel |
| = | = Show Checklist Dialog |
| <> | <> Switch tanks between left and right wing |
